Redstone Arsenal, Ala.

Trans. of #Fizika Metallov i Metallovedenie (USSR)
1958, v. 6, no. 1, p. 181-183.

DESCRIPTORS: Metals, *Brass, *Aluminum, *Steel,
*Deformation, Plasticity, Tests.

330473

A study was made to determine whether the influence of
a notch has any relation to the uniform lengthening of
metal. The study was performed on impact samples with
a square cross section, of standard sizes, with and
without notch. The deformed volumes were determined
with a scaling grid having 1 mm square cells, drawn
with the aid of an instrumental microscope. The tests
showed that the effect of notches and uniform lengthening
are closely connected.
